Ok, I'm confused. We talked about sending this POLREP out today after I reviewed and you added info on uscg and air monitoring? Why do you not want to sent out now? Tx

- Mods are in 'yellow'
- Replaced all to show correct spelling of Lannate

Don't plan to do a PolRep but here are a few of the bigger items from today and future plan...

- 10:00-12:00 meeting with process folks to discuss most recent plan of action to reduce psi
- 12:00-2:00 Met with OSHA and TCEQ (worked out some issues)
- Call from TCEQ regarding Media/PIO (TCEQ to send PIO contact name/number)
- Putting together a list of info requests for DuPont as they have asked to have them in writing (MSDS Sheets, Emer Response Plan/Shelter in Place, Process info, etc) Coordinating with OSHA/TCEQ where mutual
- CSB tomorrow hopefully
- Next Process meeting scheduled for Tues 11/18
- If all goes well at 11/18 process meeting and stabilized – will end ER and demobe 11/18 or 19

Let me know if you have any questions.
